Please remember to obey relevant rules and regulations whenever use your phone. This will prevent bad effect from you and the environment.

General security

	When driving, riding your bike or walking, do not use headphones or earphones. Your attention could be diverted, which may cause an accident and be against the law in certain geographical areas. For safety precautions do not use your phone while driving, always stay aware of your surroundings. Follow all safety instructions and regulations relating to the use of your device when you are driving a vehicle.
	Don't use at petrol stations.
	Keep your phone at least 15 mm away from your ear or body while making calls.
	Your phone may produce a bright or flashing light.

	Small parts may cause a choking.
	Don't dispose of your phone in fire.
	To avoid any hearing damage, do not listen to high volume levels for an extended. Excessive sound pressure from earphones and headphones can cause hearing loss.
	Avoid contact with anything magnetic.
	Keep away from pacemakers and other electronic medical devices.
	Avoid extreme temperatures.
	Switch off when asked to in hospitals and medical facilities.
	Avoid contact with liquids. Keep your phone dry.

	Switch off when told to in aircrafts and airports.
	Don't take your phone apart.
	Switch off when near explosive materials or liquids.
	Only use approved accessories.
	Don't rely on your phone for emergency communications.
<p>Look at the adapter regularly, specifically at the plug and the layer to detect any damages. If the adapter is damaged, you can't use it until it's fixed.</p> <p>Plug in the adapter to a power outlet which is easily accessible. Always unplug the adapter after using it.</p> <p>Use only the adapter provided with the device.</p>	

	<p style="text-align: center;">Warning electrical hazard</p> <p>To avoid serious injury, do not touch the plug of the charger!</p> <p>Disconnect the charger when you do not use it.</p> <p>To disconnect a charger or an accessory, pull the plug, not the power cable.</p> <p>The power module is the element that allows you to disconnect the product.</p> <p>The power plug must stay easily accessible.</p>
<p>Do not expose your device to direct sunlight, like on your car's dashboard, for example.</p> <p>In case of overheating do not use the device.</p> <p>Be careful when using the device while walking.</p> <p>Do not subject the device to severe impact or drop it from high position, it could cause damages or malfunctions.</p> <p>Do not disassemble, modify or fix the device by yourself.</p> <p>To clean the device use a clean and soft rag. Do not use any chemical product or detergent.</p>	

FCC Caution:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Specific Absorption Rate (SAR) information

SAR tests are conducted using standard operating positions accepted by the FCC with the phone transmitting at its highest certified power level in all tested frequency bands, although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value, in general, the closer you are to a wireless base station antenna, the lower the power output. Before a new model phone is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the exposure limit established by the FCC, Tests for each phone are performed in positions and locations (e.g. at the ear and worn on the body) as required by the FCC. For body worn

operation, this model phone has been tested and meets the FCC RF exposure guidelines when used with an accessory designated for this product or when used with an accessory that Contains no metal and that positions the handset a minimum of 5mm from the body. Non-compliance with the above restrictions may result in violation of RF exposure guidelines.
